THE BASICS

Getting around

Every page has the same bar at the bottom of the screen:

- **Disco ball** takes you Home.
- ‹ **Back** takes you to the page you were just on.
- **Menu ▾** opens a list of every page. Tap a page to go there. Tap **Close ✕** to shut it.

On the Home page you will see big squares under the word **Menu**. Tap a square. If it has more than one page inside, the pages open right under it. Tap the page you want.

GOOD TO KNOW

Your squares can look different from a coworker's. You only see the pages that fit your job.

1. iPhone: open the app from the icon on your Home Screen, not from Safari. No icon yet? See Open your app.
2. Tap **Turn on alerts**.
3. Tap **Allow** when your phone asks.

The ping says who sent it and what she would love, like **Request from Kat's guest**. Tap it to open your app.

GOOD TO KNOW

Turn it off or back on anytime in **My Profile**. Said Don't Allow by mistake? Open **Settings**, tap **Notifications**, tap **Employee Experience App**, and turn on **Allow Notifications**.
