TAFFETA
WEDDINGS

UPDATED OCTOBER 29, 2026

Taffeta Weddings App

For the office

For: Alexandra, Dominique and Cherish

The office side of the Weddings app runs every wedding from inquiry to payout. Tap a page name below to jump to it.

START HERE

Open the office side

The office signs in to the Taffeta Weddings app with the office code. Each phone asks once **Who's this?** Tap your name. Tap **Not [name]?** to switch.

The office menu has 4 squares: **Weddings**, **Sales**, **Bridal Team** and **Preview & Add-Ons**. Each one opens its pages right under it.

↑ CONTENTS

OFFICE

Weddings square

- **Booked Weddings**: every wedding still to come this year. Tap a row to open it. Shows hair and makeup counts, the team, the preview and how many invites are confirmed.
- **Bride Photo**: at the top of a bride's page there is a small + **Add Bride Photo** line. Tap it and pick her photo. Her photo then shows big at the top with her name. Use **Change Photo** to swap it or **Remove Photo** to take it off. Each bride has one photo.

- **Timeline**: build the wedding day timeline. Add people with + **Person**. Tap any box to change its words. Send it with **Text Bride**, **Text Team**, **Bride PDF** or **Team PDF**. **Text Team** copies a picture of the team timeline (with the wedding's photos under the times). Tap **Open Messages With Both**: the chat with the wedding's girls opens with the team confirmation words filled in. Tap at the very start of the words, tap **Paste** so the picture sits on top, then **Send**. To send them one at a time instead, use **Open Messages With the Picture**, then **Open Messages With the Message**. The Team PDF has the same page as a PDF. To change the order, tap **Move People**. A black line above the timeline tells you each step: tap a box, then tap where it should go, and they swap. Hair boxes trade with hair boxes, makeup with makeup. A **Party Only** artist's column works too: tap a girl there, then a box in another column, and the two girls trade artists. To give a girl to the Party Only artist without a trade, tap the girl, then the artist's name at the top of her column. To move just her hair (or just her makeup) to another artist, tap the girl in the **Hair & Makeup** column, then a box in that artist's **Hair** (or **Makeup**)

column. Only that one service moves. The other one stays with the first artist. Tap **Done Moving** when finished. On a phone the whole page shrinks to fit your screen, so there is no need to zoom. Moved the wrong person? Tap **Undo** in the black line. Each tap takes back one swap. **Undo Last Move** and **Undo All Moves** are also under **More**. **Save image** opens the share sheet; tap **Save Image** to put it in your Photos.

- **Prep Tips** and **Extensions Info** (next to **Text Bride**): each sends the bride a picture plus the words. Prep Tips is the Hair & Makeup Prep page. Extensions Info is for a bride who decides on the day to rent our extensions: $150 by Venmo, mailed back in our mailer within 5 to 7 business days with her own return label, or she owes the $250 set.
- **Timing** (on Timeline): pick **Start**, **End** or **TBD**. Use **TBD** when the bride hasn't given her final time yet. Every time shows TBD until you switch back, and calendar invites wait until the times are set.
- **Save bar** (top of Timeline): your changes save as you type, and the bar says **Saved** when they stick. A wedding pulled from Google Calendar says **not saved yet** until you check it and tap **Save**.

- **Getting ready** (on Timeline): pick each person's role. Use **MOH 1** and **MOH 2** when the bride has two maids of honor. If the count doesn't match Google Calendar, a red box asks you to pick **Use calendar headcount** or **Keep app headcount**.
- **Team on site** (on Timeline): start typing an artist's name and the team names pop up. Tap one and her email and cell fill in. Timelines show each artist by the **Name you go by** on her profile. The first artist you pick becomes the **Day-of contact** with her cell. To change it, tap **Make contact** on another artist, or type a name in **Day-of contact**.
- **Team confirmation**: fills in from the wedding. Lines with nothing filled in (like parking/valet or notes) are left out, so there is nothing to erase. Edit it, then **Send as PDF** or **Copy text**.

- **Photos** (on Timeline and Schedule, under the wedding): tap **Add Photos**, then **Inspiration From the Bride**, when the bride sends new pictures. The artists on her wedding see them right away. Their trial photos and the bridal preview photos show up here too. To swap a preview photo for new inspo, tap the × on it, then add the new inspo. All of them print in a row under the times on the team timeline. After the wedding the artists tap **Add Photos**, then **Wedding Day Photos & Videos**, to share their photos and videos. Each wedding gets its own folder under **Taffeta Bridal** in Marketing Proofs, sorted by artist. Every upload spot works the same way: pick many at once, or on a computer drag them from your Desktop, a folder or the Photos app onto the button. A black box at the bottom says **Uploading 3 of 10**, then ✓ **Saved!** when they are in. If it turns red, something did not upload, so try those again.
- **Schedule**: every upcoming wedding and who is on it.
- **Calendar**: pick a wedding and tap **Send / update invites**. Each artist's **Yes** is her confirmation. Tap **Check confirmations** to see who said yes.

↑ CONTENTS

OFFICE

Sales square

- **Pipeline**: brides who have not paid yet, newest first. When a bride pays, tap **Mark paid**, add the amount and how she paid, and tap **Save as paid**. Her wedding moves to Booked Weddings.
- **Call Coach**: tips on our recorded sales calls.
- **To Do**: Dom's, Alex's and Cherish's lists. Check a task off when it's done.
- **Texts**: ready-made text messages. Search, copy, or tap + **New template**. The **À la carte price sheet** is here too.

Dom's Day email (new): every morning about 6 AM, sales@ gets one email with Dom's day. It lists her salon clients today and tomorrow, her weddings for the next 7 days, job offers still waiting on an artist, what's new or changed since yesterday, and what's waiting on her (her To do list and Pipeline leads). Her clients and weddings also show on the **Dom's Day** calendar in the sales@ Google Calendar. Nothing to tap. No prices or phone numbers are in it.

OFFICE

Bridal Team square

- **Jobs**: pick a wedding, tick the artists, add the payout and tap **Create offer**. Tap **Text [name]** to send her the offer. Pin your go-to artists at the top.
- **Team Records**: every artist's info. **Add a team member** makes her private link. Text it to her.
- **Send the App Guide** (top of Team Records): pick **Artist Guide** or **Office Guide**, check the message, then tap **Text** next to anyone. Messages opens to her with the note and the guide link. Tap **Send**.
- **Payout Form**: payout requests from the artists.

OFFICE

Preview & Add-Ons square

- **Bridal Preview**: every preview on Google Calendar. Add photos, notes and extensions. Preview photos also show up on the bride's wedding under **Photos**. You can buy a shipping label for extensions with Shippo (it shows the price first).

- **Add-On Services**: the same-day price list ($170 per service) with **Save or send price list**, plus the Venmo and card codes guests scan to pay for wedding day add-ons. Artists log each add-on there too (service, guest, paid or not), and it shows on Pretty Life. The office sees every one under **Add-Ons Logged** at the bottom (newest day first, "Not Paid Yet" in bold) and gets an email at weddings@ for each one.

QUICK FIXES

If something looks wrong

- **"Check your signal"**: move closer to the Wi-Fi and try again.
- **Still loading?** Close the app all the way and open it again.
- **Page missing?** You only see the pages that fit your job. Ask Alexandra if you need one.
- **Something else?** Take a screenshot and text it to Alexandra.
